

NEW NCG24-286

Quick-Change Hand Lances

NCG24-286

NCG24-286DT

NLB's NCG24-286 single and dual trigger hand lances are the newest member to the quick-change family of accessories, allowing operators the ability to **rebuild the lances in less than 60 seconds at the job site**. These unique lances **operate at all pressures between 10,000 and 24,000 psi (700 and 1700 bar) and high flows up to 35 gpm (133 lpm)**. This pressure flexibility provides users the ability to **operate just a single lance for various pressure applications**. Adjustable shoulder stock and handgrip allows any operator ultimate comfort. And, just like all other quick-change accessories from NLB, these lances feature non-corrosive construction material, an ergonomic design, light trigger pull and a patented disposable cartridge system that allows the operator to force the lance into dump mode.

Features include:

- Single and dual trigger models available.
- A single lance rated for all pressures between 10,000 and 24,000 psi (700 and 1700 bar) and high flows up to 35 gpm (133 lpm).
- Safety latch prevents accidental actuation.
- New trigger design allows operator to force lance into dump mode.
- Requires only 8-12 lbs. of pressure to actuate lance.
- NCG24-286 weighs just 13.5 lbs. (6 kg) and the NCG24-286DT weighs 20 lbs. (9 kg).
- Stainless steel quick-change cartridge (BM19524).

NEW FC24-286 Quick-Change Foot Control Valve

The simple to replace,
disposable cartridge allows
users to rebuild the box in
Under 60 Seconds!

NLB's newest quick-change foot control valve incorporates all of the operation and safety features you need, with the quality and dependability that you have come to expect from NLB products. The FC24-286 foot valve is designed around a quick-change cartridge seal that makes **field repairs possible in less than 60 seconds!** And, like the NCG24-286 hand lance, the FC24-286 also **operates at all pressures between 10,000 and 24,000 psi** (700 and 1700 bar) and **high flows up to 35 gpm** (133 lpm). Combine the above features with things like NLB's new innovative pedal design allowing operators to force the foot valve into dump mode, non-corrosive construction materials and ergonomic lightweight designs and you can see how NLB makes water work for you!

Features include:

- ❑ A single foot control rated for all pressures between 10,000 and 24,000 psi (700 and 1700 bar) and high flows up to 35 gpm (133 lpm).
- ❑ New pedal design allows operator to force valve into dump mode.
- ❑ Dual dump ports keep the valve stationary.
- ❑ Constructed of non-corrosive materials.
- ❑ Weighs only 31 lbs. (14 kg).
- ❑ Stainless steel quick-change cartridge (BM19524).
